

March Montessori School

Summer Camp Program 2009

It is that time of year again, the days are getting longer, the snow is starting to melt and spring is just around the corner. Soon the grass will be turning green, the flowers will start to bud, and you will start making plans for your summer holidays. For some this means long days at the beach or camping adventures, but for others it is the worry of “what will I do with the kids once school is out?” If this is the thought that crossed your mind then we have a great, fun filled solution for you. Our Summer Camp Program will be running each week of the summer vacation, and will be open to children ages 3–10.

The breakdown for each week of summer camp is as follows:

June 24-26 **WELCOME TO SUMMER**

This short week gives the children an opportunity to become familiar with the summer camp routine, our staff, and all of their fellow campers.

June 29-July 3 **GREEN WEEK**

During green week we are going to stress the importance of reducing, reusing and recycling. Many of the crafts and activities that we complete throughout the summer will be using recycled material and children will be encouraged to bring in recycled items from home.

July 6-10 **UNDER THE SEA**

Our underwater adventure will have us exploring fish, plants, and wildlife that can be found in our oceans, lakes, and rivers throughout the world.

July 13-17 **IT'S A JUNGLE OUT THERE**

Put on your safari hats and lets go on a lion hunt. This week's theme is all

about the animals and reptiles we might see on a jungle safari.

June 20-24 **CAMP OUT**

Our campout will include nature walks, tents, and smores roasted on our “campfire”.

July 27- 31 **OUTER SPACE ADVENTURE**

Are you ready to fly to the moon? This is where we are going during our outer space adventure, and along the way we will be looking at all of the planets in our solar system.

August 4-7 **LET'S CELEBRATE**

Halloween, Valentine's Day, Thanksgiving and a Birthday Party! A year full of holidays all in one week.

August 10-14 **DOWN ON THE FARM**

With a look at all the great things that farmers can provide for us, and a look at all of our favourite farm animals, this week should be “moovelous”.

August 17-21 **DINOSAUR DAYS**

This pre-historic week will be all about dinosaurs. An archeological dig for dinosaur bones and making our own fossils are just a few of the fun activities that will be included.

August 24-28 **BACK TO SCHOOL**

As summer winds to an end, we will be getting ready to go back to school. During this week we will share all of our great memories from the past summer and prepare ourselves to head back to school with all of our new friends.

Wacky Wednesday's and Feature Friday's will add to each week's themes with dress up days and special guests.
